SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Normal Operations	Normal Operations	Normal Operations

Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

Situation Overview

- **California State of Emergency Proclamation**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

- **CDPH Statewide Travel Advisory**

As of 06/15/21, CDPH and the CDC recommend delaying travel until persons are fully vaccinated. For more information: [CDC Travel Guidelines](#)

Confirmed Global COVID-19 Cases – Per Worldometers COVID-19 Live Updates as of 12/07/21 at 1100 hours:

- 267,063,849 (+4,324,684) total confirmed cases.
- 5,282,879 (+53,362) total deaths.

Confirmed United States COVID-19 Case – Per Centers for Disease Control and Prevention (CDC) as of 12/06/21 at 1000 hours:

- 49,002,475 (+841,504) total confirmed cases.
- 785,655 (+8,952) total deaths.

Confirmed California COVID-19 Cases - Per Medical Health Coordination Center (MHCC) as of 12/06/21 at 1100 hours:

- 4,851,429 (+44,919) total confirmed cases

COVID-19 Vaccines Administered – Per Vaccine Task Force as of 12/07/21 at 2359 hours:

- 59,919,966 (+1,633,784) vaccines administered

- Please see attached California Health & Human Services (CHHS) Agency / Cal OES Joint Situation Report for additional details.

SITUATION SUMMARY

2021 Early December Storms

A significant weather system is likely for much of the state Saturday night through the middle of next week, with multiple rounds of rain, mountain snow, and gusty winds.

Activations

- Situation Cell is activated at Enhanced Watch for Incident Reporting on the Early December Storms.
- Please see attached Situation Cell Incident Report Early December Storms.

CESRS and FIRENET

Field staff DO have the ability to communicate via radio to the California State Warning Center (CSWC), as long as they are on the same radio microwave path\route. See [mapping route diagram](#).

- The CSWC represents the hub in Sacramento, where all the colored lines meet in a star.
- The caller CAN reach the CSWC, as long as they are on the same colored 'on MW route'. (Example 202 Mountain Top Red to 242 Mountain Top Red, as shown in the box labeled 'Dialing Directions'.)
- The caller CANNOT reach someone on another route, or colored line. This is considered 'off MW route'. (Example: 202 Mountain Top Red to 262 Mountain Top Green.)
 - This is determined to be inoperable at the moment.
 - TACCOM and PSC are working on a solution.

Cal OES INLAND REGION

- Nothing significant to report.

Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES SOUTHERN REGION

Pipeline P00547 Incident 10.02.21, Orange/San Diego Counties

- Cal OES continues to support the UCG responding to the 10/02/21 pipeline breach affecting Orange and San Diego County beaches.

Activations

- San Diego County EOC is activated at a Level 3. Operational period: 0800-1700 hours, Monday-Friday
 - City of Carlsbad is activated at a Level 3. Operational period: 0800-1700 hours, Monday-Friday
- Orange County EOC is activated at a Level 3. Operational period: 0800-1700 hours, Monday-Friday

Deployments

- 1 Cal OES Southern Region Emergency Services Coordinator deployed to Virtual ICP

WEATHER OF CONCERN

NORTHERN CALIFORNIA

- A significant weather system is likely for much of the state Saturday night through the middle of next week, with multiple rounds of rain, mountain snow, and gusty winds.

SOUTHERN CALIFORNIA

- A significant weather system is likely for much of the state Saturday night through the middle of next week, with multiple rounds of rain, mountain snow, and gusty winds.

Weather Advisories, Watches, and Warnings currently active in California:

<http://www.wrh.noaa.gov/hazardSummary/?state=ca>

Active Weather Warnings, Watches and Advisories by County:

<http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

WEATHER KEY POINTS

12/13/21 - 12/19/21

Monday - Sunday

- A significant weather system will continue to bring rain, mountain snow, and gusty winds to much of the state.
 - Snow levels across Northern and Central California will range from 1000-4000 feet, but accumulating snow is possible as low as 1000 feet above sea level by the end of the storm Tuesday, 12/14/2021
 - Moderate to heavy rain and snow are expected for Northern and Central California, with 2-4 inches of rain possible in the valleys and 4-6 feet or more of snow likely in the Sierras
 - Areas of strong, gusty winds of 50-70 mph could lead to tree damage and local power outages. Higher gusts are expected across the Sierra ridges.
 - Low visibility is expected at higher elevations with snow and blowing snow.
 - Across Southern California and north into Monterey County, the heaviest precipitation is expected 12/13/2021 and 12/14/2021, with up to 2-4 inches of rain possible across coastal Southern California, and 3-5 inches of rain in the southern foothills and mountains.
 - Snow is also expected across higher mountains of Southern California, with travel impacts possible. Snow levels will start out around 7000 ft through 12/14/2021, then lower to 4500 ft during the evening of 12/14/2021
 - The heavy rain and snow will raise the threat for flash flooding, mudslides/debris flows, and travel hazards across the region.
 - **At this time, the burn scars of most concern are the Alisal, Apple, Bobcat, Bond, CZU, Dam, Dolan, El Dorado, Ranch 2, Lake, Palisades, River, Caldor, Creek, Feather River portion of the Dixie, KNP, Windy, and the SQF Complex.**
- Precipitation is expected to end sometime Tuesday night into early Wednesday, but additional storms could move into northern and central portions of the state later Wednesday into Thursday.
